RE: 1971 Dodge Charger RT 426-Hemi vehicle. Serial #W523R1A172808

Considering the rarity (approximately 25 units manufactured total), and condition, above vehicle should be valued in excess of \$6,000.00 to the concerned market.

Sale price of \$3,500.00 is conservative in our estimation. This Hemi-equipped vehicle is definitely a wise investment.
